The Official Arigato Money Care Guide

How to Protect the T-Shirt That Could Change Your Financial Future

By Larry Goldstein
Founder & CEO, Arigato Money

MAISON BEAST

Before We Begin

Congratulations.

If you're reading this, you now own an Arigato Money T-shirt. That means you're no longer simply wearing cotton. You're wearing a garment that has spent 120 uninterrupted minutes in the company of money*. Not necessarily physical cash. Same machine. Same water.

Same cycle. During this process, we believe something rubs off. We call it the Money Aura.

And while we cannot currently see, measure, photograph or independently verify the Money Aura, we believe that caring for your T-shirt correctly may help preserve its financial proximity. You wouldn't buy a Ferrari and clean it with dish soap.

You wouldn't buy a Rolex and put it in the dishwasher. So please... do not treat your financial future like an ordinary T-shirt.

* Money may mean cash, digital assets, crypto, IOUs, promissory notes, or someone thinking about a sum while the machine runs. This is parody, not a guarantee that physical cash is used. Money Aura is fictional. The T-shirt is real.

MAISON BEAST

The First Wear

Your first wear is important.

Before putting on your Arigato Money T-shirt, take a moment. Hold it in both hands. Look at it. Remember where it has been. This T-shirt has already been around money. Possibly more money than you. Now put it on. Look at yourself in the mirror and say:

“Arigato, Money.” Three times is recommended. More than seven begins to look desperate. Money can sense desperation.

MAISON BEAST

Washing Your T-Shirt

Eventually, you may need to wash your shirt.

This is perfectly normal. Rich people also sweat. We recommend washing at 30°C, inside out, with similar colors. Use a mild detergent. Avoid bleach. Avoid aggressive chemicals.

And under absolutely no circumstances should you wash your Arigato Money T-shirt together with clothing containing phrases such as: “BROKE.” “NO MONEY.” “I HATE MONDAYS.” or “CRYPTO INVESTOR 2021.” We simply do not know how these energies interact.

MAISON BEAST

The Money Aura Refresh

After repeated washing, you may feel that your shirt's Money Aura is becoming weaker.

Do not panic. This does not necessarily mean you are becoming poor. We recommend performing a simple Money Aura Refresh. Place one clean banknote beside the T-shirt for approximately 30 minutes. For stronger results, place several banknotes around it.

The denomination is entirely your decision. However, we have noticed that nobody ever tries this with €5 million and then complains.

Drying

Air drying is recommended.

Allow your T-shirt to dry naturally. Money takes time. So should your laundry. Avoid excessive tumble drying, as extreme heat may damage the fabric and, theoretically, make the Money Aura uncomfortable.

There is currently no evidence that Money Aura enjoys temperatures above 60°C. There is also no evidence that Money Aura exists. We remain optimistic.

Ironing

Iron inside out on a low temperature.

Never iron directly over the Arigato Money print. Think of the logo as your financial headquarters. You wouldn’t put a 200°C iron directly onto Goldman Sachs. Apply the same principle here.

Storage

When you are not wearing your Arigato Money T-shirt, store it somewhere clean, dry and financially aspirational.

A wardrobe is acceptable. A safe is excellent. Next to your investment portfolio is ideal. Crumpled on the floor beside an unpaid electricity bill is not recommended. Fold carefully. Money respects organization. Probably.

Sharing Your Shirt

We strongly discourage lending your Arigato Money T-shirt to friends.

Especially ambitious friends. Your Money Aura has spent time getting to know you. Introducing additional people unnecessarily may create financial confusion. If someone asks to borrow your shirt, simply tell them: “I don’t mix friendship and wealth.”

Then send them to ArigatoMoney.com.

Can I Wash It With More Money?

Technically, yes.

However, Arigato Money cannot accept responsibility for damaged currency, blocked washing machines, angry spouses, conversations with your bank, or explaining to a washing-machine technician why there are twenty €50 notes inside the filter.

Our proprietary Money Wash Process is performed by professionals. Please attract responsibly.

Early Indicators

After wearing your Arigato Money T-shirt, you may begin noticing subtle changes.

You find €2 on the pavement. Someone finally pays you back. Your salary arrives. You receive a tax refund. A vending machine returns two coins instead of one. You remember €20 in an old jacket. Do not dismiss these events. Other people call them coincidences.

We call them early indicators. Document everything. The first step toward becoming a millionaire is noticing when €2 enters the room.

MAISON BEAST

Final Care Instructions

Wash cold.

Dry naturally. Store carefully. Wear frequently. Thank money. And remember: Your Arigato Money T-shirt has already been around wealth. Your responsibility now... is to keep the relationship alive. ARIGATO MONEY THANK MONEY. RESPECT MONEY. ATTRACT MONEY.

Arigato Money is a T-shirt. Care instructions are designed primarily to prevent you from ruining said T-shirt. Money Aura has not been scientifically established. Placing currency near clothing is not an investment strategy. Please consult an actual financial professional for matters involving actual finance.
